Wash clothing before reuse. Thoroughly clean shoes before reuse. Get medical attention. Symptoms include irritation or redness (prolonged contact may cause burns).

Serious Skin Contact: Wash with a disinfectant soap and cover the contaminated skin with an anti-bacterial cream. Seek immediate medical attention.

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention. Symptoms include mild respiratory irritation or coughing (if mist is inhaled).

Serious Inhalation: Not available.

Ingestion: Rinse mouth with water. Do NOT induce vomiting (risk of electrolyte imbalance) unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. If large quantities of this material are swallowed, call a physician immediately. Loosen tight clothing such as a collar, tie, belt or waistband. Symptoms include nausea, vomiting, or abdominal discomfort.

Contain spill with inert absorbents (e.g., sand, vermiculite). Avoid runoff into drains. Collect in chemical-resistant containers.

Large Spill: Use neutralizing agents (e.g., sodium carbonate) if required. Use a shovel to put the material into a convenient waste disposal container. Finish cleaning by spreading water on the contaminated surface and allow to evacuate through the sanitary system.

SECTION 7: HANDLING AND STORAGE

Precautions: Keep locked up. Do not ingest. Do not breathe dust. Wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. If ingested, seek medical advice immediately and show the container or the label. Avoid contact with skin and eyes. Keep away from incompatibles such as moisture. avoid contact with metals (corrosion risk). Use corrosion-resistant equipment.

Storage: Hygroscopic. Keep container tightly closed. Keep the container in a cool, well-ventilated area. Store in HDPE or fiberglass tanks. Keep tightly sealed to prevent moisture absorption. Stable at ambient temperatures

Shelf Life: When properly stored to protect from moisture contact, the expected shelf life for all calcium chloride packaged products is 36 months.

SECTION 8: EXPOSURE CONTROLS, PERSONAL PROTECTION**Occupational Exposure Limit or Biological Limit Value:****Exposure Limits:**
